

# Webiators CookieNotice

**How to Install:** Download the "Ready to paste" package from your customer's area, unzip it and upload the all files in 'app/code/Webiators/CookieNotice folder to your Magento install dir.

**Update the Database:** Move to Magento Root directory with CLI and execute below commands

- php bin/magento setup:upgrade
- php bin/magento setup:di:compile
- php bin/magento setup:static-content:deploy
- php bin/magento cache:flush

**How to Use:** Go to Store >> Configuration >> Webiators >> Cookie Notice

## 1. General Setting

Enable module from General Setting and update configurations as per your needs

The screenshot shows the Magento Configuration interface. At the top, there is a yellow warning banner: "One or more of the Cache Types are invalidated: Page Cache. Please go to [Cache Management](#) and refresh cache types." and "System Messages: 1". The main heading is "Configuration". Below it, the "Scope" is set to "Default Config". A "Save Config" button is visible. The left sidebar contains a menu with categories: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, and SYSTEM. The "STORES" category is selected. Under "STORES", the "WEBIATORS" section is expanded, and "Cookie Notice" is selected. The main content area shows the "General" settings for "Cookie Notice". The "Enable" dropdown is set to "Yes". Below this, the "Cookie Notice Display Setting" section is visible, with the following values: "Auto Hide Cookie Message(seconds)" is 60, "Cookie Notice Display Type" is "Show In Popup", and "Cookie Notice Display Position" is "Bottom left".

## 2. Cookie Notice Display Setting

### Cookie Notice Display Setting

Auto Hide Cookie Message(seconds) <small>[store view]</small>	<input type="text" value="60"/>
