

Share On Whatsapp

How to Install: Download the "Ready to paste" package from your customer's area, unzip it and upload the all files in 'app/code/Webiators/ShareOnWhatsapp folder to your Magento install dir.

Update the Database: Move to Magento Root directory with CLI and execute below commands

- php bin/magento setup:upgrade
- php bin/magento setup:di:compile
- php bin/magento setup:static-content:deploy
- php bin/magento cache:flush

How to Use: Go to Store >> Configuration >> Webiators >> Share On whatsapp

Enable module from General Setting and update configurations as per your needs

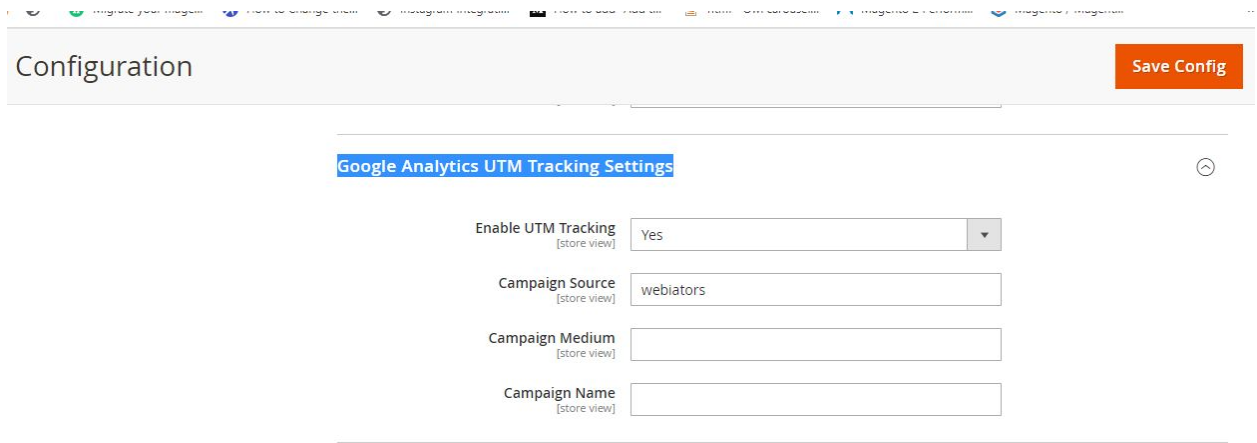

The screenshot shows the Magento 2 admin interface. At the top, a yellow system message states: "One or more of the Cache Types are invalidated: Page Cache. Please go to [Cache Management](#) and refresh cache types." The main heading is "Configuration". Below it, the "Store View" is set to "Default Config". A "Save Config" button is visible in the top right. The left sidebar contains navigation menus for WEBIATORS, GENERAL, CATALOG, SECURITY, and CUSTOMERS. The "WEBIATORS" menu is expanded, showing "Share On Whatsapp" selected. The "General Settings" section is active, displaying the following configuration options:

- Enable Module** [store view]: Yes (dropdown menu)
- Enable "Share on Whatsapp Button"**: (checkbox)
- Custom Message to Share** [store view]: Check this Amazing Product (text input)
- Display Product Name** [store view]: Yes (dropdown menu)
- Display Product Name in whatsapp Message**: (checkbox)
- Product Name Label** [store view]: Product Name : (text input)

An "Activate Windows" watermark is visible in the bottom right corner of the screenshot.

Google Analytics UTM Tracking Settings:

To Enable Tracking you can easily enable the module and add required details to track everything.

The screenshot shows a configuration page with a header "Configuration" and a "Save Config" button. The main section is titled "Google Analytics UTM Tracking Settings". It contains four input fields: "Enable UTM Tracking" (set to "Yes"), "Campaign Source" (set to "webiators"), "Campaign Medium" (empty), and "Campaign Name" (empty). Each field has a "[store view]" link below it.

Bitly Settings

Please go to Bitly setting Group, enable the option and add Generic Access Token

NOTE: You can get your token from [here](#)

The screenshot shows a configuration page titled "Bitly Settings". It contains two input fields: "Enable Bitly Settings" (set to "Yes") and "Generic Access Token" (containing a yellowed-out token). Each field has a "[store view]" link below it.
