- php bin/magento setup:di:compile
- php bin/magento setup:static-content:deploy
- php bin/magento cache:flush

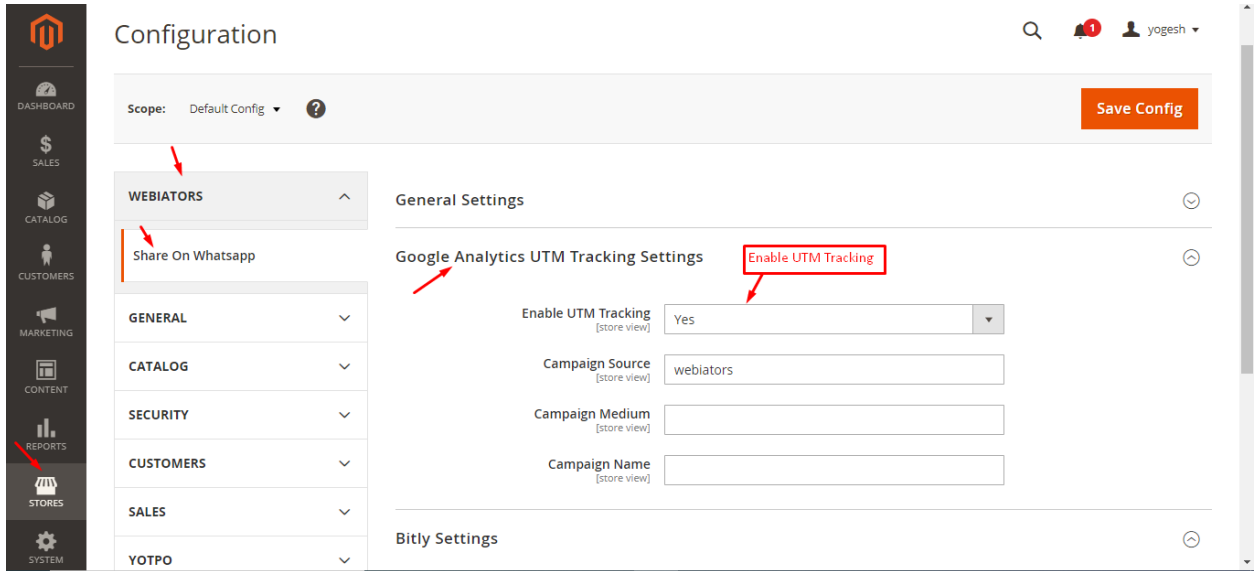

How to Use: Go to Store >> Configuration >> Webiators >> Share On Whatsapp

Enable module from General Setting and update configurations as per your needs

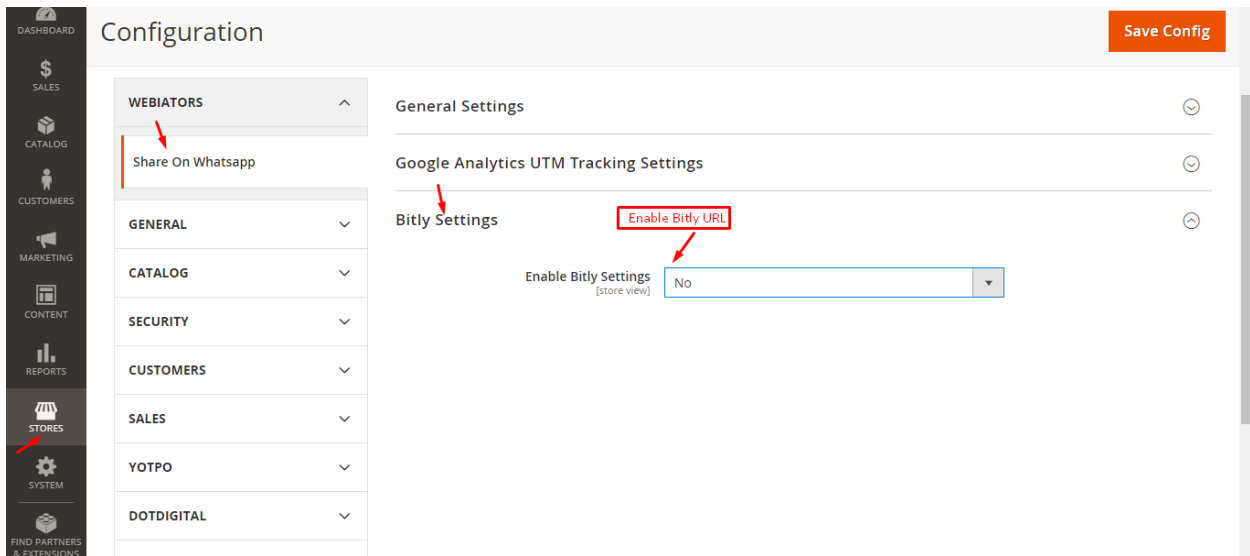

The screenshot shows the Magento Configuration interface. On the left, a sidebar contains navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, and System. The main content area is titled 'Configuration' and features a 'Save Config' button in the top right. A red arrow points to the 'Configuration' title. Below it, a menu lists various modules: WEBIATORS, Share On Whatsapp, GENERAL, CATALOG, SECURITY, CUSTOMERS, SALES, YOTPO, DOTDIGITAL, and SERVICES. A red arrow points to 'WEBIATORS', and another points to 'Share On Whatsapp'. The 'General Settings' section for 'Share On Whatsapp' is displayed, with a red box highlighting the 'Enable Share On Whatsapp' dropdown menu, which is currently set to 'Yes'. Other settings include 'Custom Message to Share' (text input: 'Check this Amazing Product'), 'Display Product Name' (dropdown: 'Yes'), 'Product Name Label' (text input: 'Product Name:'), 'Product Short Description' (dropdown: 'Yes'), 'Product Short Description Label' (text input: 'Product Description:'), and 'Description Max. Length' (text input: '180').

Google Analytics UTM Tracking Settings: To Enable Tracking you can easily enable the module and add required details to track everything.

Bitly Settings: To Please go to the bitly Group, enable the option and add Generic AccessToken.

Note: You can get your token from [here](#).
